

B401 Suspension clamp SU-UNI series

PRODUCT DESCRIPTION:

Universal clamp SU-UNI is made from high-strength aluminum and it can be used for most frequented cross section of overhead insulated wires. Insert part is designed as installing clamp and after is screw tight, as suspension clamp.

PRODUCT RANGE:

Guaranteed strength 10kN; Slip ~15kN; Point of deformation ~28kN; Installation angle maximally 30°. SU-UNI 2x-4x 16-120;

MATERIALS:

SU-UNI: High strength aluminum, anti UV thermoplastic.

PACKING:

Carton dimensions: 460x260x280 mm

Contain: 50ks

Weight: 480g /ks

N.W: 24 kg

G.W.: 25 kg

STORAGE AND TRANSPORT:

This product does not have and specific storage requirements.
